SUMMARY

With my Bachelor of Science in Computer Science and my recent training in full-stack web development, together with the creative, organizational and technical skills that I acquired as Videographer/Video Editor for more than 10 years —from here and abroad, I aim to develop functional, dynamic and effective web applications that delivers clear message to the user while contributing to the interest of the website owner. May it be collaborating with a team or with minimal supervision.

SKILLS

PROGRAMMING LANGUAGE	FRONT-END WEB DEVELOPMENT	BACK-END WEB DEVELOPMENT	OTHER DEVELOPEMENT TOOLS
